Customised products are also available , contact us to see how we can help!

Powder dust application equipment

Innovative products developed by Lance Lab have revolutionised the powder dusting process making high reach tasks a breeze with the patent pending XL8 D. Whilst the Mini-flex allows total flexibility reaching difficult locations on closer range dusting tasks.

**XL8 D Telescopic lance for Birchmeier
DR5 powder duster**

XL8 D Price—£225 Unique flexi-tip

*with DR5 bundle—£275

Orders over £200 are free carriage!

The ultimate kit for treating wasp nests!

- * Long and light allowing precision dusting at height
- * Lance is adjustable at lengths from 1.5 m to 8 m
- * Reduces time taken to treat difficult to reach wasp nests
- * Reduces risk of stings when treating large or difficult nests that have been disturbed
- * Reduces the need for using access equipment and the risk of injuries due to elimination of ladder use
- * XL 8 D will ensure compliance with the Working at heights (2005) regulations

Specification

- * Telescopic fibre glass lance range from 1.5 m to 8 m
- * 7 sections
- * Stores into a compact 1.3 m long protector case
- * Overall weight of 1.5 kg
- * Long flexible tip is easily bent to the required angle
- * 10 cm Hi-Viz yellow sight tip
- * Dust blockage tool available (air-line attachment)

Great value bundle available includes DR5 and XL8 for £275!

Price: £7.99

XL8 D Telescopic lance for Birchmeier liquid spraying equipment

XL8 D With Spray Nozzle Kit

Price: £245

Orders over £200 are free carriage!

The extension for both spraying and dusting!

- * Long and light allowing precision dusting at height
- * Lance is adjustable at lengths from 1.5 m to 8 m
- * Reduces time taken to treat high areas
- * Reduces the need for using access equipment and the risk of injuries due to elimination of ladder use

To convert the XL8 D from dusting to spraying a spray set is required. This adapter allows for spraying of liquids typically used for treatments such as oak processionary caterpillar.

Liquid spraying application equipment

At lance Lab we have a comprehensive range of spraying equipment, making pest control faster and easier. Check out our website to find out about other new developments coming soon from Lance Lab!

Birchmeier DR5

Birchmeier DR5 duster

Price: £88.15

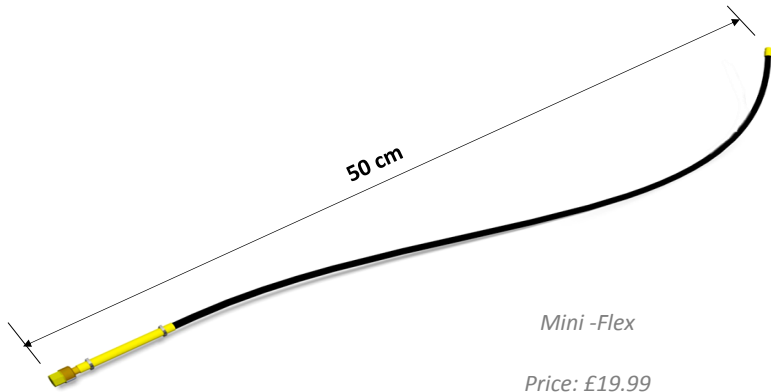

Orders over £200 are carriage free!

The DR 5 compression duster is widely used by professional pest controllers for application of insecticidal dust to wasp nests and into voids and some open spaces for the control of a wide range of insects.

Holds 5- 8 lbs (2 kg — 5kg) held in the polythene tank which incorporates a pump assembly allowing the user to pressurise the sprayer without external power source. Pressure relief valve included. The XL8 D telescopic lance attaches to the Birchmeier DR5.

duster enabling up to 5kg of insecticidal dust (such as Ficam D) to be safely loaded into the duster at one go, allowing over 75 wasp nest treatments to be completed before refilling is necessary, this helps reduce spillages and contamination that is often occurs when other dusters (that use small dust chambers) are refilled for each job.

Mini- Flex DR5 duster attachment

Mini -Flex

Price: £19.99

The flexible dusting tool for difficult to reach spots!

- * Compact, tough and light allowing precision dusting
- * Lance is available in custom lengths as required.
- * Can be bent to almost any shape to allow easy access to restricted areas

Specification

- * 50 cm flexible length
- * 6mm diameter
- * Stores into a compact protector case (ordered separately)
- * Easily bent to the required angle
- * Dust caps provided to prevent spillage of insecticidal dusts
- * Dust blockage tool available (air-line attachment)

Can also be supplied with spray set adapter for liquid spraying, attaches to Birchmeier liquid compression sprayers
